MAQS Pro Lite Quick Start Guide

Version 4.10 Professional - Developed by M. Ahari

Professional Quantity Surveying & Estimating Software

This guide is intentionally brief and practical.

1. Start MAQS

Extract the ZIP and double-click RUN_MAQS_PRO_LITE.bat. If you want shortcuts, run CREATE_DESKTOP_SHORTCUT.bat.

2. Licence

For your own developer copy use: **********. Customers can use the 14-day trial or a licence key.

3. Create or Open a Project

Use the Project page and keep project files in the Projects folder. Back up important work regularly.

4. CCO

Choose the Civil and Construction Operation. This is the starting point of the workflow.

5. QC

Enter quantities in Quantity Calculations. Use Length, Area, Volume, Count, Item, Lump Sum or Provisional Sum as required.

6. BOQ

Saved QC records appear in the BOQ. Check unit, quantity, rate and amount.

7. Rates and Valuations

Use Rate Build-Up for item pricing and Valuations for progress claims.

8. Summary and Export

Review totals in Summary and export selected sections to Excel, CSV or PDF.

9. Drawing Reader

Use the Drawing Reader for PDF/DXF/Image take-off and transfer measured items to QC/BOQ.

10. Construction Library

Use Construction Library to open Method Statements, Risk Assessments and COSHH documents.

Final Workflow

- CCO
- QC
- BOQ
- Rate Build-Up
- Valuations
- Summary
- Reports / Export
- Construction Library
